Hey Dante,

Did you get the comments from Christine yet?

Thanks,

Jeryl R. Gardner, P.E., C.E.M.

Hey Christine,

If you get them done by the end of today, please send them to me and copy the two gentlemen cc'ed on this email (partner agencies). I would like to review them this evening and discuss with them first thing in the morning. Thanks!

Subject: RE: Status of Anaconda ROD review?

Hi Dante,

I've finished my review and just need to type up my comments. I'm also awaiting comments from Stuart Walker, who said he'd provide them today. I will type up my comments today so you'll have them first thing tomorrow morning. I apologize for how long this review has taken, as Amy mentioned we seem to keep getting pulled into fire drills.

I'm told that this site may get deferred. Will that affect the ROD at all?

Thanks,
Christine

Amy,

Thanks so much for helping review the Anaconda ROD. We will work on addressing your and Christine's comments right away.

Also, if you could give us a heads-up about any interest in the Anaconda Site by HQ higher-ups, that would be great!

We have been up to our ears putting together materials and briefings for “Kell” Kelly, assistant to the administrator, on every aspect of the Superfund program. I finally got my comments typed in and sent to Christine late Friday.

My 2 biggest issues are: (1) some of the HLPs don’t show risk outside of the risk range, what is the trigger for action for those HLPs? (2) In one place the document states that the solids will be left behind, unaddressed, but in other places solids will be removed and reprocessed or closed in the 4-acre Pond. Which is it?

Christine and Amy,

Will you guys be sending me HQ’s comments on my draft ROD for Anaconda today? Last week you had indicated that you were delayed until this week. We expect a long approvals process with BLM/DOI involved, so time is becoming tight. Please give me an update – hope to see it today. Thanks!
